## Income - Median Household Income

This indicator reports median household income based on the latest 5-year American Community Survey estimates. This includes the income of the householder and all other individuals 15 years old and over in the household, whether they are related to the householder or not. Because many households consist of only one person, average household income is usually less than average family income. There are 49,097 households in the report area, with an average income of \$102,526 and median income of \$87,772.

## Adult Literacy

Literacy data published by the Program for the International Assessment of Adult Competencies (PIACC) breaks adult literacy into three different "Levels". Those reported as Level 1 are at risk for being able to understand printed material. Those at the upper end of Level 1 can read and understand the text well enough to be able to perform small task, but might have difficulty understanding or drawing inferences from multiple forms of text. Those at the lower end may struggle with basic vocabulary or even be functionally illiterate.

The percentage at or below Level 1 for literacy in the report area is estimated at 9.9%, with a 95% probability that the actual (true, unknown) percentage is between 6.6% and 13.3%.

Report Area	Population Ages 16-74	Total At or Below Level 1	At or Below Level 1	Total Lower Credible Interval	Lower Credible Interval	Total Upper Credible Interval	Upper Credible Interval
Wright County, MN	91,729	9,081	9.9%	6,054	6.6%	12,200	13.3%

Note: This indicator is compared to the state average.  
Data Source: National Center for Education Statistics, NCES - Program for the International Assessment of Adult Competencies, 2017.

## Adult Literacy Level 2

Those reported at Level 2 still struggle to perform text based informational tasks, but are considered to be nearing reading proficiency. People in this literacy level can usually be able to read printed words and digital print, as well as being able to relate and make inferences from multiple pieces of information that can be pulled from more than one document. Complex evaluation and inferencing may still be too difficult.

The percentage at or below Level 2 for literacy in the report area is estimated at 31.9%, with a 95% probability that the actual (true, unknown) percentage is between 27.3% and 36.6%.

Report Area	Population Ages 16-74	Total At or Below Level 2	At or Below Level 2	Total Lower Credible Interval	Lower Credible Interval	Total Upper Credible Interval	Upper Credible Interval

## Adult Literacy Level 3

Those reported at Level 3 still are proficient in reading. This includes being able to understand and work with multiple complex texts, while still being able to evaluate the reliability of sources. People in this level can infer complex ideas and sophisticated meanings from written documents and texts.

The percentage at or below Level 3 for literacy in the report area is estimated at 58.2%, with a 95% probability that the actual (true, unknown) percentage is between 53.6% and 62.8%.

## Housing

### Households - Overview

This indicator reports the total number and percentage of households by composition (married couple family, nonfamily, etc.). According to the American Community Survey subject definitions, a family household is any housing unit in which the householder is living with one or more individuals related to him or her by birth, marriage, or adoption\*. A non-family households is any household occupied by the householder alone, or by the householder and one or more unrelated individuals.

\*Family households and married-couple families do not include same-sex married couples even if the marriage was performed in a

state issuing marriage certificates for same-sex couples. Same sex couple households are included in the family households category if there is at least one additional person related to the householder by birth or adoption.

## Evictions

This indicator reports information about formal evictions based on court records from 48 states and the District of Columbia, compiled by the Eviction Lab. The number evictions and eviction filings within the report area is shown in below. The "filing rate" is the ratio of the number of evictions filed in an area over the number of renter-occupied homes in that area. An "eviction rate" is the subset of those homes that received an eviction judgment in which renters were ordered to leave. For the year 2016, the Eviction Lab reports that, of 8,187 homes in the report area, there were 156 eviction filings, for an eviction filing rate of 1.91%. 45 of the eviction filings ended in an eviction, for an eviction rate of 0.55%.

Note: Not all counties have data that has been provided. Indicator data do not include information about "informal evictions", or those that happen outside of the courtroom.

## Homeless Children & Youth

This indicator reports the number of homeless children and youth enrolled in the public school system during the school year 2019-2020. According to the data source definitions, homelessness is defined as lacking a fixed, regular, and adequate nighttime residence. Those who are homeless may be sharing the housing of other persons, living in motels, hotels, or camping grounds, in emergency transitional shelters, or may be unsheltered. Data are aggregated to the report-area level based on school-district summaries where three or more homeless children are counted.

In the report area, of all the 25,254 students enrolled in reported districts during the school year 2019-2020, there were 116 or 0.50% homeless students, which is lower than the statewide rate of 1.81%.

Note: Data are available for 81.80% school districts in the report area, representing 92.20% of the public school student population.

## Other Social & Economic Factors

### Social Vulnerability Index

The degree to which a community exhibits certain social conditions, including high poverty, low percentage of vehicle access, or crowded households, may affect that community's ability to prevent human suffering and financial loss in the event of disaster. These factors describe a community's social vulnerability.

The social vulnerability index is a measure of the degree of social vulnerability in counties and neighborhoods across the United States, where a higher score indicates higher vulnerability. The report area has a social vulnerability index score of 0.05, which is less than the state average of 0.28.

Report Area	Total Population	Socioeconomic Theme Score	Household Composition Theme Score	Minority Status Theme Score	Housing & Transportation Theme Score	Social Vulnerability Index Score

## Food Environment - Grocery Stores

Healthy dietary behaviors are supported by access to healthy foods, and Grocery Stores are a major provider of these foods. There are 13 grocery establishments in the report area, a rate of 9.20 per 100,000 population. Grocery stores are defined as supermarkets and smaller grocery stores primarily engaged in retailing a general line of food, such as canned and frozen foods; fresh fruits and vegetables; and fresh and prepared meats, fish, and poultry. Delicatessen-type establishments are also included. Convenience stores and large general merchandise stores that also retail food, such as supercenters and warehouse club stores, are excluded.

Within the report area, 19,250 or 19.3% of adults aged 20 and older self-report no active leisure time, based on the question: "During the past month, other than your regular job, did you participate in any physical activities or exercises such as running, calisthenics, golf, gardening, or walking for exercise?" This indicator is relevant because current behaviors are determinants of future health and this indicator may illustrate a cause of significant health issues, such as obesity and poor cardiovascular health. Note: In 2021, the CDC updated the methodology used to produce estimates for this indicator. Estimated values for prior years (2004 - 2017) have been updated in this platform to allow comparison across years. ### Obesity

This indicator reports the number and percentage of adults aged 20 and older self-report having a Body Mass Index (BMI) greater than 30.0 (obese). Respondents were considered obese if their Body Mass Index (BMI) was 30 or greater. Body mass index (weight [kg]/height [m]<sup>2</sup>) was derived from self-report of height and weight. Excess weight may indicate an unhealthy lifestyle and puts individuals at risk for further health issues.

Within the report area, there are a total of 27,771 adults age 20 and older who self-reported having a BMI greater than 30.0. This represents a 28.2% of the survey population.

*Note: In 2021, the CDC updated the methodology used to produce estimates for this indicator. Estimated values for prior years (2004 - 2017) have been updated in this platform to allow comparison across years. Use caution when comparing with saved assessments generated prior to November 10, 2021.*

## Late or No Prenatal Care

This indicator reports the percentage of women who did not obtain prenatal care until the 7th month (or later) of pregnancy or who didn't have any prenatal care, as of all who gave birth during the three year period from 2017 to 2019. This indicator is relevant because engaging in prenatal care decreases the likelihood of maternal and infant health risks. This indicator can also highlight a lack of access to preventive care, a lack of health knowledge, insufficient provider outreach, and/or social barriers preventing utilization of services.

Within the report area, of the total births of 5,160 during 2017 and 2019, births with late or no prenatal care was 102 or 1.98%. This is lower than the national average rate of 6.12%.

*Note: Data are suppressed for counties with population less than 100,000 or when the birth counts represent fewer than ten persons.*

The total number of persons receiving Medicare is shown, broken down by number over 65 and number of disabled persons receiving Medicare for the report area. The U.S. Department of Health and Human Services reported that a total of 20,336 persons were receiving Medicare benefits in the report area in 2019. A large number of individuals in our society are aware that persons over 65 years of age receive Medicare; however, many of them are unaware that disabled persons also receive Medicare benefits. A total of 2,344 disabled persons in the report area received Medicare benefits in 2019.

## Health Outcomes

### Hospitalizations - Emergency Room Visits

This indicator reports the number and rate of emergency room (ER) visits among Medicare beneficiaries age 65 and older. This indicator is relevant because emergency room visits are "high intensity" services that can burden on both health care systems and patients. High rates of emergency room visits "may indicate poor care management, inadequate access to care or poor patient choices, resulting in ED visits that could be prevented"<sup>1</sup>.

In the latest reporting period there were 20,179 Medicare beneficiaries in the report area. Beneficiaries had 4,686 emergency room visits, and the rate of visits per 1,000 beneficiaries was 533.0. The ER visit rate in the report area was lower than the state rate of 571.0 during the same time period.

### Poor Mental Health - Mental Health and Substance Use Conditions

This indicator reports the rate of diagnoses for mental health and substance use conditions among the Medicare population. Figures are reported as age-adjusted to year 2000 standard. Rates are resummarized for report areas from county level data, only where data is available. This indicator is relevant because mental health and substance use is an indicator of poor health.

## Life Expectancy by Census Tract

This indicator reports the average life expectancy at birth. Life expectancy measures the average number of years from birth a person can expect to live, according to the current mortality experience (age-specific death rates) of the population. Life expectancy takes into account the number of deaths in a given time period and the average number of people at risk of dying during that period, allowing us to compare data across census tracts with different population sizes.

Within the report area, the average life expectancy at birth is 81.36 of the total population.

*Note: Data are suppressed for counties with fewer than 20 deaths in the time frame.*

## Period Life Table (2010-2015)

This indicator reports the probability of dying between the ages referenced in each category (among the population living to the first age in the reference category). For example, the data in column **Ages 1-4** expresses the probability of dying between one and four years of age. Data values are expressed as a percentage.

### Deaths of Despair (Suicide + Drug/Alcohol Poisoning)

This indicator reports average rate of death due to intentional self-harm (suicide), alcohol-related disease, and drug overdose, also known as "deaths of despair", per 100,000 population. Figures are reported as crude rates, and as rates age-adjusted to year 2000 standard. Rates are resummarized for report areas from county level data, only where data is available. This indicator is relevant because death of despair is an indicator of poor mental health.

Within the report area, there were 188 deaths of despair. This represents an age-adjusted death rate of 27.5 per every 100,000 total population.

Report Area	Total Population, 2016-2020 Average	Five Year Total Deaths, 2016-2020 Total	Crude Death Rate (Per 100,000 Population)	Age-Adjusted Death Rate (Per 100,000 Population)

## Mortality - Firearm

This indicator reports the 2016-2020 five-year average rate of death due to firearm wounds per 100,000 population, which includes gunshot wounds from powder-charged handguns, shotguns, and rifles. Figures are reported as crude rates, and as rates age-adjusted to year 2000 standard. This indicator is relevant because firearm deaths are preventable and they are a cause of premature death.

Within the report area, there are a total of 43 deaths due to firearm wounds. This represents an age-adjusted death rate of 6.5 per every 100,000 total population.

Note: Data are suppressed for counties with fewer than 20 deaths in the three-year time frame.

**COUNTY PROFILE**

**Wright Co.**

Wright Co. is a part of Economic Development Region 7W, which is located in the Central Planning Region.

**POPULATION CHARACTERISTICS**

2021 population: **144,845 people**

Wright Co. enjoyed a natural increase - more births than deaths from 2020 to 2021, but also experienced net in-migration - meaning more people moved in than moved out. In addition to domestic in-migration, Wright Co. welcomed net international in-migration - gaining new Minnesotans from foreign countries (see Table 1).

The labor market had grown extremely tight in recent years, with less than 1 jobseeker per vacancy until the pandemic recession intervened in early 2020 and the number of unemployed workers spiked. Job vacancies in Central reached new highs in the 4th quarter of 2021, quickly bringing back challenges in finding new workers and the lowest jobseeker-per-vacancy ratio on record (see Figure 8).

## COMMUNITY DEMOGRAPHIC CHANGES

The next two reports are pulled from our Client Information System and show the demographic information for the year 2018 (the last time the assessment was conducted) and 2022 (this year's data). The following are trends that should be acknowledged:

### **TOTAL NUMBER OF INDIVIDUALS SERVED:**

The total number of individuals appears to be dramatically lower in 2022. This is because during the Pandemic, our WIC program was moved to all virtual. They were unable to collect signatures on Release of Information data during this time. This puts both years similar to the number of individuals served.

*\*\* This data impacts many of the variations in data collected in the reports. \*\**

### **OLDER ADULTS SERVED:**

With the launch of the aging service program in 2018, the number of individuals over the age of 65 has increased by 27%.

### **Unknown/Not Reported Data:**

The following areas tend to have high rates of unknown or not reported data:

- Health (health insurance)
- Military status
- Work status
- Education level (ages 25+)
- Non-cash benefits

147699166	Our homemaker hasn't reached out tonus for 6 to 8 weeks at least. We want someone else. I've called the office to report this and left messages without a call back.
147612104	10 out of 10 exceptional work by Shell & Mech "contractors" Amazing will recommend other crews. worked professionally & went above and beyond
145831732	The assistance I receive from WCCA has helped reduce some of my financial worries. I am very grateful for the assistance that I have received.

145755330	When we last attended headstart at the beginning of 21/22 school year i felt that i was being asked to fill out papers for grants/scholarships that felt like fraud. It didnt apply to us and the headstart staff knew that. When Dara was in charge i felt like she chose favorites and didnt have the nest interest of my kids in mind. She seems to really be money hungry. I participated in policy council also and felt that if you had an unpopular opinion or an actual issue that the didnt listen or care.
145072073	I have been in WCCA program for several years in the energy help program and without them I feel they have helped me immensely due to being a husband and wife couple both on social security to live more efficiently through our life. The help with our energy bill helps us immensely. Thanks you for it.
144657734	We received they frozen foods for people over 60 during the pandemic. We thoroughly appreciated it while it lasted. The people delivering the meals were always pleasant. I also received my covid vaccinations from Wright Co. public health. The set up was wonderful and so efficient. I appreciate all that you do for the community.
144305446	It took a while (4-6 weeks) for someone to contact me. When I was contacted via email, I called the number provided which went directly to voicemail and which was very frustrating as it took an additional 10 days or so to be processed. I do understand that the process takes time and manpower is limited. I am very grateful for the WCCA staff and how my family was helped.
142880621	The staff was very friendly and helpful.
138535990	Mandy is awesome.
138535446	Having been in roles whereby I was the resource liaison/person who offered various means of assistance-it is a big shift to now be the recipient of assistance. Life circumstances have changed beyond my control -and I am very grateful for this interim help.
138264579	When the pandemic first hit, as a person over 65, I was very hesitant about going to the grocery store. Actually, I still am. We both are on social security and with the rising cost of food, these meals have brought so much comfort to us.
135227849	I am very happy and satisfied with the Head Start services for my child.
135210497	Will send separately when it's done
135210064	Do not make the teachers and staff have to get the covid vaccine.
135209472	Our 4 year old had a few hold ups, however with a few months of being in headstart, his socializing and overall wellbeing has improved 10xover. The staff and teachers are beyond amazing, and working with our family in such amazing ways.
135209256	Martha is beyond amazing, she's not only helped myself and early head start child but my older kids adore her and she's always going above and beyond.
135209246	The staff at head start are amazing. I love Ms.Kelley. The kids love being around her and she does great with the kids. I love her teaching style and hope to see her continuing in the head start program.

135156264	The food shelf has helped me alot with some food. It's hard for me to ask for help. I do have issues with foods that I can eat. Like I cannot have whole wheat or dairy much. But I do get what I can and it helps. Beggars can't be choosers. Is how I was brought up so I take what I can use and don't complain. I can get by with the things I am offered and appreciate what I get. I'm very thankful for you all. Thank you
134341962	Mandy in Maple Lake is the best, she has helped us over and beyond expected!!!!!!
133893837	Mandy went above and beyond expectations helping navigate MNSure and learn about other possible programs of support. She was extremely knowledgable and demonstrated a gift for explaining complex things in a way I could comfortably understand.
132925671	I worked with Mandy. She was totally awesome and very kind to help me navigate through MNSure. A delight to work and answered questions diligently. She put me at ease. More people need to be like Mandy.
132924187	I brought my taxes in for preparation, but could never get contact with the person doing my taxes. I recently found out that they were not prepared or filed by her. Now I have to pay in. I should have gotten my rent credit and \$600 family credit from the government. I need someone to fix this asap! Please call! 320.420.4509 Jordyn Hayes
132897463	always had excellent service with the programs available though wcca
132241385	I am starting to get ready to retire. I have couple of months before I can go on Medicare. WCCA was very helpful with the process for the couple of months I will need insurance before I hit Medicare.
132121706	Mandy was very helpful in setting me up for MNSure insurance and reviewing options available for me. She did a great job in assisting with the necessary forms to set it up.
131268808	We love the Headstart program! The Rogers team of teachers makes sure our little one is learning and improving while having fun. He can't wait to get to class in the mornings. This program has helped our family provide more structure to our daily activities.
129535384	Our 4 year old that started with WCCA, was having a hard time interacting, socializing and speaking as well as potty training. Through this program, he has been able to make friends, sing songs and speak more fluently. He has also made progress so much that he's made friends in his class. This class/program has done WONDERS for our son as well as us as parents. Our advocate Bri, has been AMAZING with both my husband and I and very much so our 4 yo. Our 4 yo started with having troubles being away from myself and home, and now he gets up and goes through his routine of getting ready to, "go on the bus to see Ms.Bri". Without the help of the headstart program, we wouldn't have been able to find work and actually work to support our family/home.
129434996	The ways this program has impacted my life is astronomical. If you would like my full testimony for whatever reason please reach out I don't have time to write it all out today as I'm at work on a 10 minute brake but this program has been a huge help in making me the person and mom I am today and my kids the kids they are today. Thanks for all you have done for me and my family as well as all the other families in our program past present and future! -Katie Edberg
129432276	Only issues I have come across is at wal mart not all fruit and veggies ring up under WIC And Walmart states is not their problem.
